Seattle, Washington 98101

Attention: Michael Johnston

Subject: SOHIO Prudhoe Bay Gas Turbines
State I.D. No. 79032803

Dear Mr. Johnston:

The State Clearinghouse has completed review of the subject proposal.
The following comments were received:

The Alaska Department of Fish and Game has no objection to the proposal provided that it meets ADEC and EPA Standards.

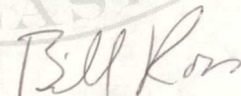

The Alaska Department of Environmental Conservation replied that their Air Quality Control Section will continue to respond directly to EPA concerning this project.

The Alaska Department of Labor stated:

"Because there is no manpower schedule for the project, we are unable to produce an accurate assessment of impact on our department. The project is relatively small, however, and it is our belief that the construction and operation phase of the project can be absorbed into our present operations with little or no increase in workloads."

The Clearinghouse has no objection to the proposal. This letter satisfies the review requirements of the OMB Circular A-95.

Sincerely,

Jerry L. Madden
State-Federal Coordinator
